\* A 33% City discount will apply only to Sorted Waste (household) from Residential Properties within City limits. The discount will be applied to the bill when proof of City address where the waste was produced is presented. The following pieces of evidence that clearly identify the person and address responsible for the waste will be accepted at the scale: Valid Driver's License with street address; piece of government mail such as a tax notice or utility bill; or a signed declaration of the property owner stating the address where the waste originated.

**NOTES:**

1. No City discount applies to the entrance fee. Entrance fees are in addition to those calculated for waste disposal. **EXCEPTION:** The entrance fee will be waived for residents of the City bringing in material solely for recycling and placement in the big blue bins.
2. A 100% surcharge will apply for unsorted waste loads containing 10% or more of recyclable materials (cardboard, clean metal, wood, shrubs, etc.) contaminated with garbage. The penalty rate is \$250.00 per tonne with a minimum charge of \$500.00.
3. Entrance fee will be waived only if the load strictly contains those items classified as "no charge" (compostable materials, clean soil, batteries, and automotive).
4. Special arrangements must be made with the City in advance of transporting asbestos and hydrocarbons to the Waste Management Facility. See the City policy for disposing of asbestos and hydrocarbons before delivery.

Disposal of waste in the City of North Battleford is subject to provincial regulations for operating a waste disposal ground.

The City reserves the right to ban any firm from bringing solid waste into the Waste Management Facility if determined the firm continually brings in large quantities of recyclable material for disposal. A large quantity of recyclable material is defined as that which constitutes at minimum 10% of the load brought to the Waste Management Facility for disposal.

The allowance of discounts, waiving of fees, surcharging, etc. will be at the sole discretion of the City-employed Waste Management Facility operator.
