Proposed Activity/Program/Event etc.

CFY has been working hard to advocate and assist youth in using their own voices to bring programming and events to the Battlefords. The youth have asked on multiple occasions to have the ability to create their own buttons with their own designs for themselves and their friends. We always want the youth to have the ability to create pronoun/PRIDE buttons for our new LGBTQI2S+ group. We will utilize the button maker to give youth the opportunity to create in a space they feel safe, as well as have the ability to make buttons for youth when we are out in the community and at events.

Proposed Date(s)	Ongoing
Proposed Time(s)	daily
Location	The Battlefords

Project description (include objectives of program, benefits to participants)

We will utilize the button maker to give youth the opportunity to get creative in a space they feel safe, as well as have the ability to make buttons for youth when we are out in the community and at events.

We will also offer it to other community organizations at the Youth Network Meetings if anyone wants to borrow it to make buttons for other youth projects and/or events within the Battlefords.

Proposed Activity/Program/Event etc.

We are a small community school in the heart of North Battleford. We have a high Indigenous population and the search for truth and reconciliation is a priority in our building. Our school operating budget was cut by an additional \$25,000. Therefore we do not have the funding to support the purchasing of larger amounts of Indigenous resources, such as books, visuals, music, and artwork. We would love have our students see themselves represented in our building. This helps with their feeling of belonging, which leads to empowerment and self-efficacy.

Proposed Date(s)	Sept 2022 - June 2023
Proposed Time(s)	Throughout the year
Location	Connaught Elementary School

Project description (include objectives of program, benefits to participants)

We would like to Indigenize our school so that our students truly feel comfortable and at home in our building. We would like to increase our resource base so that we are able to explore truth and reconciliation to the best of our ability. This includes adding to our school library as well as classroom libraries so that Indigenous content, at all reading levels, is readily available. We would like to invest in Cree language resources that would help us label items throughout the school in the correct dialect. Finally, we would like to invest in art supplies that can be used during LiveArts Indigenous Artist Showcases.

Estimated number of participants 150
